

## Is it Love (that makes me feel this way)

When I fall asleep at night  
I keep dreaming of you  
I hold my pillow tight  
Dreaming that it's you  
When the sun is high  
You are on my mind  
It will make me cry  
If you say goodbye.

Is it love that makes me feel this way  
When I am near you time stands still  
Is it love that makes me feel this way  
If it is please let it last

Tell me what's the answer  
Should I invest my time  
Will you be my lover  
Or just a friend of mine  
Tell me what's the answer  
Can you make it clear  
Can you tell me is it love?

When I see you beaming with another man  
My heart is filled with jealousy  
If he touches you it makes me mad  
Please baby make me understand.  
If you don't want love  
Release my heart  
From this hold you have on me.  
I will step aside  
But it will make me sad  
And my heavy heart will be free.

Is it love that makes me feel this way  
When I am near you time stands still  
Is it love that makes me feel this way  
If it is please let it last

Tell me what's the answer  
Should I invest my time  
Will you be my lover  
Or just a friend of mine  
Tell me what's the answer  
Can you make it clear  
Can you tell me is it love?

Is it love that makes me feel this way  
When I am near you time stands still  
Is it love that makes me feel this way  
    If it is please let it last  
Is it love that makes me feel this way  
    When I miss you time stands still  
Is it love that makes me feel this way  
    please let this feeling last.

Tell me what's the answer  
    Should I invest my time  
    Will you be my lover  
    Or just a friend of mine  
Tell me what's the answer  
    Can you make it clear  
    Can you tell me is it love?

Is it love that makes me feel this way  
When I am near you time stands still  
Is it love that makes me feel this way  
    If it is please let it last  
Is it love that makes me feel this way  
    When I miss you time stands still  
Is it love that makes me feel this way  
    please let this feeling last.
